

BERKAN UZE
Address: Istanbul, Turkey
Email: berkanuze@gmail.com Telephone: +905465592963

ACADEMIC BACKGROUND

- Bogazici University, Istanbul, Turkey** 2022-present
- **PhD in Mathematics**
Thesis Adviser: Ilhan Ikeda
Working Thesis Title: Topics in categorical information theory
- Bogazici University, Istanbul, Turkey** 2018-2022
- **M.Sc. in Mathematics**
Thesis Area: Algebraic Geometry
Thesis Title: The Theory of Noncommutative Motives
Thesis Adviser: Ilhan Ikeda
GPA: 3.93
- University of Chicago, Chicago, Illinois** 2011-2016
- **A.B in Philosophy, Minor in Classical Studies**
Final GPA: 3.493
Award(s): Dean's List

RESEARCH TALKS

- An Invitation to Higher (linear) Algebra: Stable ∞ -categories and their Invariants,** April 15th, 2025
Bogazici University Graduate Seminar
- A Glimpse of Noncommutative Motives,** ODTU-Bilkent Algebraic Geometry Seminar, Ankara/Turkey November 12th, 2022
- A Glimpse of Noncommutative Motives** March 8th, 2022
Feza Gürsey Center for Physics and Mathematics, Istanbul/Turkey
- An informal introduction to the “Higher Geometry” of Sati and Schreiber** February 7th, 2022
Feza Gürsey Center for Physics and Mathematics, Istanbul/Turkey
- Irregular Perverse Sheaves (following Tatsuki Kuwagaki)** September 19th -25th, 2021
Summer School -Irregular Riemann-Hilbert Correspondence, Aussois/ France
- A Glimpse of Noncommutative Motives I & II** November 6th & June 4th, 2021
Bogazici University Graduate Seminar, Istanbul/Turkey
- Introduction to the Riemann-Hilbert Correspondence** November 18th, 2019
Bogazici University Graduate Seminar, Istanbul/Turkey

CONFERENCES & WORKSHOPS

- Mirror Symmetry and Differential Equations,** Feza Gürsey Center for Physics and Mathematics, Istanbul/Turkey July 2023
- Singular Learning Theory Summit,** Topos Institute, Berkeley/California (Virtual) June, 2023
- Summer School -Irregular Riemann-Hilbert Correspondence** September 2021
- PCMI 2012,** Institute for Advanced Study (Virtual) Summer 2021
- Algebraic K-theory, motivic cohomology and motivic homotopy theory,** Isaac Newton Institute March 2020
Cambridge University, Cambridge
- Complex Algebraic Geometry Winter School,** Nesin Math Village, Izmir/Turkey January 2020
- Periods and Motives,** Humboldt-Universität, Berlin/Germany September 2019
- Geometry-Topology Summer School,** Nesin Math Village, Izmir/Turkey July 2019

OUTREACH & ORGANIZATION

Higher Structures Seminar Series, Feza Gürsey Center for Physics and Mathematics, Istanbul/Turkey 2019-present
Organizer

Mirror Symmetry and Differential Equations, Feza Gürsey Center for Physics and Mathematics, Istanbul/Turkey July 10-14, 2023
Organizer

The event was partially supported by a TÜBİTAK grant number 121C034.

Monodromy and Hypergeometric Functions, Galatasaray University, Istanbul/Turkey February 2020
Organizer

WORK EXPERIENCE

Can Yayınları June 202x – present
Translator

- Translator of philosophical texts for the *Series in Philosophical Thought*. Completed the translation of Ludwig Wittgenstein's *Bemerkungen über die Farben* (Remarks on Colour)
- Currently working on *Tractatus Logico-Philosophicus*

Ozyegin University March 2020 - present
Coordinating Research Assistant at the Department of Mathematics

- Coordinating all the departmental examinations and other logistical matters.
- Overseeing management of research groups, including one on statistical learning theory. Involved with interdepartmental collaboration on a large scale.
- Mentoring of new teacher assistants.
- Helping cultivate a supportive learning environment.

Galatasaray University, Istanbul October 2018 - March 2020
Researcher

- Active member of the research and seminar group at the Galatasaray University supervised by Susumu Tanabe and supported by TUBITAK grant 116F130: "Period integrals associated to algebraic varieties".
- Delivered and attended research-level lectures throughout the year.
- Ongoing scientific collaboration with Susumu Tanabe and other members of the research group.

TECHNICAL SKILLS

Languages: Native proficiency in **Turkish** and **English**, fluent in **German** and **French**, experience reading **Ancient Greek**

Programming: Python, Lean, LaTeX, HTML

OTHER

Independent Work: Independent, self-taught developer building data-driven applications and digital platforms. Also interested in AI alignment and interpretability.
